# Subject index

Accelerometry, movement sensor, activity monitor, physical activity intensity, 1607
Activity monitor, accelerometer, activity threshold, cutpoints, 937
Altitude, intermittent hypoxic training, performance, multi-sport athletes, haematology, hypoxicator, 431
Amenorrhoea, oligomenorrhoea, osteopaenia, osteoporosis, disordered eating, 1289
Anaerobic exercise test, blood lactate, sprint running, distance running, 87
Anthropometry, athlete, adolescent, fitness, 869
Anthropometry, body composition, Olympic rowers, proportionality, 43
Anthropometry, computed tomography, dual-energy X-ray absorptiometry, waist circumference, 823
Anthropometry, proportionality, somatotype, weight class, weight training, 1365
Anthropometry, somatotype, female athletes, 2-km performance, 651
Arm cranking, dinghy sailing, dynamic exercise, endurance, isometric exercise, knee extension, 1101
Assistant referee, football, judging offside, refereeing, 987
Asynchronous, synchronous, lactate threshold, upper body, training prescription, 453
Attentional focus, physical load, expertise, reaction time, 1259
Attributions, controllability, stability, efficacy expectations, 473

Basic shoe, mechanical testing, loading rate, 1229
Biological noise, coordination, dynamical systems, flutter kick, Fourier analysis, skill acquisition, swimming, variability, 213
Biomechanics, cricket, fast-bowling, kinematics, methodology, $within-subject, 1279
Biomechanics, kinematics, balance, drop landings, in-line skating, extreme sports, 1411
Body mass, height, body surface area, allometric and linear regression models, 3
Body size, power, rapid movements, allometric scaling, 1355

Cardiac output, exercise, myocardial contractility, nitroglycerin, 1393
Cervical, range of motion, whiplash, neck, rugby, spine, 887
Computer simulation, biomechanics, coordination, jumping, 193
Consequences, youth, sport, inductive, thematic analysis, 1171
Coordination, butterfly stroke, motor control, biomechanics, expertise, 131
Cricket, fast bowling, anthropometry, proportionality, somatotype, 1587
Cryotherapy, intermittent exercise, muscle soreness, muscular dysfunction, 1163

Delayed-onset muscle soreness, pain scales, 845
Device, active drag, swimming, additional drag, 375
Direct matching, visuomotor priming, imitation, observational learning, mirror neuron system, 497
Discriminant analysis, talent identification and development, physical fitness, Talent Search volleyball programme, 1337
Doping detection, erythropoietin, simulated altitude, isoelectric focusing, 1241
Drag, lift, oar blade, rowing, 643
Dual task, event-related potentials, P300, processing efficiency theory, simulated driving, 161
Dyspnea, oxygen consumption, minute ventilation, I:E ratio, peak flow, 1599

Eccentric exercise, maximal isometric strength, muscle soreness, oxygen consumption, kinematics, 55
Efficiency, mechanics, power distribution, rowing, 403
Electromyography, mechanomyography, peak torque, joint angle at peak torque, work, acceleration, 687
Elite coaches, sports science research, research needs, 1577
Elite performance, gymnastics, meaning, situated cognition, course of action, problems, 173
Exercise, amino acids, sucrose, insulin, metabolism, 1449
Exercise, biomechanics, physiology, kinetics, torque, 1195
Exercise, lactate, oxidative stress, antioxidants, 1203
Exercise tests, walking, maximal oxygen uptake, 143
Expert performance, skill acquisition, deliberate practice, officiating, 65

Fatigue, circadian rhythms, Fitt's law, core temperature, time awake, 1531
Field hockey, training load, adaptation, performance, workload, 629

Fitness activity, indoor cycling, recreational physical activity, Spinning® programme, 421
Fluids, exercise-associated hyponatraemia, dehydration, exercise performance, hyperthermia, heat illness, 781
Football, penalty, self-taking, confounder, logistic regression, 963
Football, soccer, European cups, knock-out competitions, two-leg matches, UEFA, 1547
Football, youth, organizational, tournament, 1307
Force platform, model, handspring vault, 381
Force sensors, force platforms, strength, ergometer, 1211
Forearm endurance, isometric exercise, muscle oxygenation, pressor response, rock climbing, 1433

Game location, outcome, mood states, behaviour, 1491
Golf, shaft length, launch conditions, ball speed, 731

Heart rate, muscle soreness, performance, running, venous return, 413
Heat load and debt, exercise, body heat content, 975
High-intensity exercise, pH, rating of perceived exertion, blood glucose, blood lactate, bicarbonate, 1613
Hiking, isometric endurance, anaerobic power, 1095
Home advantage, game location, soccer, officials, yellow cards, football, audience, supporters, 1541
Home advantage, ordinal regression, football, officiating decisions, crowd effects, 1185
Hunger, appetite, exercise, weight control, 635

Imitation, motor learning, demonstrations, 559
Imitation, point-light displays, skill acquisition, point-of-gaze, 531
Information processing, knowledge base, verbal reports, cognitive strategies, 945
Invasion Games, tactics, divergent thinking, teaching games for beginners, deliberate play, 1423
Isometric contraction, hiking, hyperaemia (post-exercise), muscle blood flow, oxygen uptake, sailing, 1081

Lactate curves, endurance markers, software, 1403
Laser sailing, hiking, oxygen uptake, 1109
Linear regression, possession of the ball, match, performance, soccer, 969
Locomotion, running, surface compliance, lower extremity mechanics, 1479
Long jump, biomechanics, amputee, trans-tibial, trans-femoral, 393
Longitudinal research, design, methodology, representativeness, 1011

Maltodextrin, mouthwash, placebo, gastrointestinal symptoms, 1385
Masters athletes, relative age, motivation, ageing, 1377
Mathematical model, pacing strategy, power output, cycling velocity, 1001
Maximal oxygen uptake, peak oxygen uptake, middle-distance running, 851
Meta-analysis, observational modelling, development, movement outcome, movement dynamics, visual perception perspective, intrinsic dynamics, 547
Modelling, imagery, intervention, observational learning, acquisition, retention, 587
Motocross, riding, physiological stress, ground reaction force, 995
Mountain bike, performance, onset of blood lactate accumulation, relative power output, time trial, 927
Movement patterns, physiology, intermittent high-intensity exercise, 461
Muscle adaptations, dominant and non-dominant, ATPase histochemistry, myosin heavy chain analysis, tennis players, 1501

Naismith's rule, regression analysis, extreme values, 719
Neurophysiology, reflex, athletics, 79
Nutrition, sailing, hydration status, 1129

Observation of action, action generation, perception of biological motion, 519
Offside, decision-making skills, assistant referees, 991
Olympic Games, sports biomechanics, Roche vault, somersaulting technique, elite performance, landing, judges'scores, 673
Olympic sailing, aerobic capacity, muscular strength, hamstring/quadriceps ratio, 1117
Oxygen consumption, recovery, grinding activity, all-out test, sailing, 1141
Oxygen uptake, endurance, repeatability, performance, testing, 1325

Pattern recognition, tactical moves, position analysis, standard situation, volleyball, 1345
Peak oxygen consumption, crank rate selection, limits of agreement, 711
Peak oxygen consumption, upper body exercise, arm crank, exercise measurement, gender, 443
Peak power, friction-braked cycle ergometry, inertial correction, 859
Peak torque, isokinetic, concentric, knee extensors/flexors, physical activity, 835
Perceived feedback, competence, effort, enjoyment, gender, 915
Perceived support, received support, stress-buffering, self-confidence, 1057
Perceptual judgements, affordances, effectivities, RPE scale, behavioural potential, calibration of action, 97

Physical activity, long-range prediction, meta-cognition, 699
Process perspective, age, gender, coping effectiveness, 11
Professional, tennis, tournaments, female, 1221

Recovery duration, blood metabolites, team sports, high-intensity training, metabolic load, 619
Recovery patterns, distribution, repeated sprint, electromyography, 905
Resistance training, kinetics, kinematics, assessment, 201
Rowing, oar blade, lift, drag, 1471
Rugby league, performance, odds ratio, sub-elite, team sport, 1507
Rugby, sprinting, specificity, 185
Rugby union, match activities, notational analysis, performance, player size, law changes, 895

Sailing, energy expenditure, oxygen consumption, sports nutrition, dietary survey, 1153
Sailing, nutrition, fluids, dehydration, carbohydrates, children, 1137
Self-as-a-model, modelling, self-regulation, social cognitive theory, children, swimming, 577
Self-determination theory, sport participation, recreation, hedonic enjoyment, eudemonia, 1047
Self-esteem, achievement goals, autonomous motives, physical education, 149
Shoulder, thorax, acromion process, scapular movement, validity, 749
Skill acquisition, modelling, practice, constraints, 599
Slalom skis, subjective judgement, mechanical properties, vibration and damping, 1567
Sleep loss, athletic performance, fatigue, daytime sleep, 1557
Soccer, aerobic training, exercise intensity, heart rate, perceived exertion, lactate, reliability, 659
Soccer, penalty shootout, stress, skill, fatigue, 121
Social support, performance, 33
SRM powermeter, competition analysis, professional cycling, Grand Tours, 1299
Stressors, coping, coping effectiveness, 1521
Stroke, kick, passing, recognition, swimming, 1251
Swing plane, kinematics, model, golf, 739
Swing styles, movement strategies, weight transfer, 757

Talent, field hockey, multidimensional performance characteristics, standard of performance, longitudinal study, 481
Talent identification, relative age effect, peak height velocity, chronological age, 879
Technique, passing, shooting, football, 1461
Tendon elasticity, ultrasonography, skeletal muscle, running, in vivo, 1035
Tennis, juniors, competition, 667

Velocity coupling, physiological cost, tennis, groundstroke, 815
Vibration exercise, whole body vibration, bone remodelling, osteoporosis, 111
Vision, posture, regulation, inter-sensory, handstand, gymnastics, 1271

Water balance, sweat loss, metabolism, glycogen, tonicity, 797
Weight transfer, club head velocity, performance, 771
2D biomechanical analysis, distance covered, high-intensity activity, impairment of physical performance, 805
